## DESIGN FUTURES FORUM APPLICATION

Forum Dates: May 18-22, 2020

1. Please tell us what is motivating you to participate in Design Futures and what do you hope to learn and bring back to the UTSOA?

2. Design Futures fosters capacity building for future leaders to critically think about power and privilege in the practice of community engaged design, and to rethink the role of the designer in the built environment. What does the phrase “community engaged design” (aka public interest design) mean to you? What specifically do you think planners/designers bring to social justice work?

Please limit responses to no more than two pages
