ATTRITION/RETENTION

BSID Freshmen: Eight freshmen began in 2012 as Interior Design majors; 75% remained after the first year. Attrition out of the BSID program after the first year was 25% (two students); one switched to a different major and has since graduated from UT, and another left the university.

BSID Transfer Students: One internal transfer student also joined the first-year cohort in Fall 2012, remained, and graduated with the BSID. (100% retention of internal transfer student.)

GRADUATION RATES

Ten students graduated with the Bachelor of Science in Interior Design (BSID) in 2016 (six in spring, three in summer, and one in fall). Of the ten, six were in the fall 2012 first-year cohort. The remaining four students entered the interior design major as internal transfers after fall 2012, and thus were not in the fall 2012 first-year cohort. One student received the degree in three years including summers, but she already had a UT degree at the time she started pursuing the BSID.

Nine out of ten of the 2016 graduates graduated within four years of entering UT. One graduated within five years of entering UT; the first year was spent in another major and four years were spent in the interior design major.

JOB PLACEMENT RATES

As of mid-July 2017 (approximately one year after graduation), ten graduates of May 2016 (100%) have entered the design profession at the entry level at:

2016 BSID graduates

- Gin Design Group   Associate Designer   Houston, TX
