

## Public Information

The Planning Accreditation Board requires this information be posted for the Master of Science in Community and Regional Planning program.

### Student Achievement

In an exit survey of 28 MSCRP graduates in fall of 2024, 14 responded to the survey (50%). 93% of those surveyed indicated they were somewhat or well prepared by the CRP curriculum to communicate orally and in written form, to analyze and interpret data, to perform independently on self-directed projects, to critically analyze information and arguments. 100% of them indicated they were somewhat or well prepared to use computer-based technology and planning-related software, to collaborate in team work, and to evaluate the social and economic context for plans, and to function in culturally and ethnically diverse environments.

In 2023-24, all external reviewers rated the overall quality of student work presented in final reviews in Practicum courses to be either "good" or "excellent". Our program requirements, external reviews, graduation rate, and the employment record of recent graduates in planning and related professions all indicate that the CRP program fosters the highest levels of achievement from our students.

### 2024-2025 Tuition and Fees

In State Residents, per full-time academic year	\$12,478
Out of State Residents, per full-time academic year	\$23,302

### Student Retention Rate

Percentage of students who began studies in fall 2023 and continued into fall 2024	97%
--	-----
