

EMPLOYMENT REPORT

2023

THE UTSOA INFLUENCE

With nationally ranked programs and a vision that combines intellectual curiosity and ambition with professional practice, it is no wonder that graduates of The University of Texas at Austin School of Architecture are in high demand. In fact, over 93% of our surveyed graduating class in 2023 who pursued employment reported finding a job in the months after graduation; 1% opted to pursue graduate studies.

This report compiles the job placement of the 2023 UT Austin School of Architecture alumni six months after graduation. Survey data is assembled into an employment report published annually.

The publication organizes jobs by degree and includes employer name, position title, and location for each graduate, while maintaining individual confidentiality. Firms or organizations that employ multiple graduates from the same program are identified by an asterisk. Graduates who participated in a dual degree program are indicated as well. A salary breakdown is included for programs where adequate data was received. This report also includes information about alumni interest in pursuing licensure or certification within each field. Employment type is broken down into public, private, and non-profit sectors for Community and Regional Planning graduates. Data in this report is based upon a 64% survey response rate.
