

EMPLOYMENT REPORT

2022

THE UTSOA INFLUENCE

With nationally ranked programs and a vision that combines intellectual curiosity and ambition with professional practice, it is no wonder that graduates of The University of Texas at Austin School of Architecture are in high demand. In fact, of the surveyed members of the graduating class of 2022, 98% of those who were pursuing employment reported finding a job after graduation, and 5.6% of them opted to pursue graduate studies.

This report compiles the job placement of the 2022 UT Austin School of Architecture alumni six months after graduation. Survey data is assembled into an employment report published annually.

The publication organizes jobs by degree and includes employer name, position title, and location for each graduate, while maintaining individual confidentiality. Firms or organizations that employ multiple graduates from the same program are identified by an asterisk. A salary breakdown is included by program and locations where adequate data was received. This report also includes information about alumni interest in pursuing licensure or certification within each field. Employment type is broken down into public, private, and non-profit sectors for Community and Regional Planning graduates. Data in this report is based upon an 83% survey response rate.

SALARY BY DEGREE

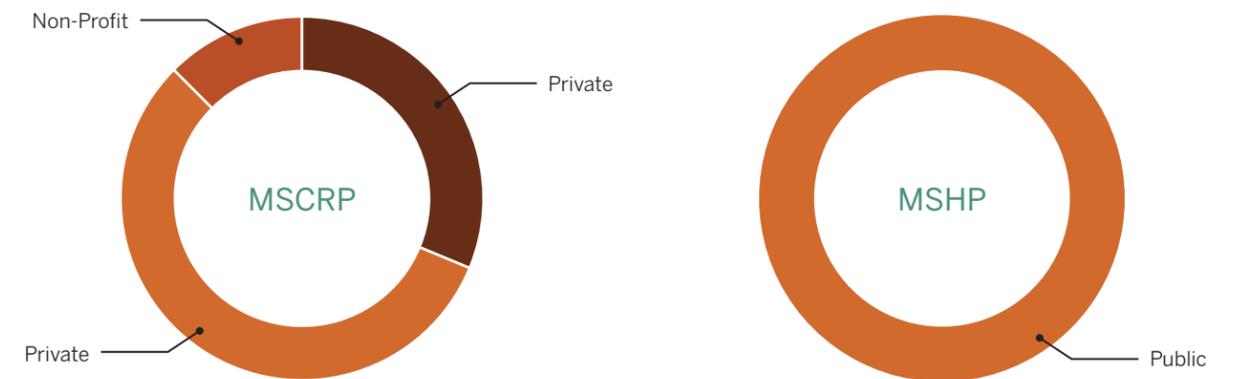

SALARY BY LOCATION (ARCHITECTURE ONLY)

In 2022, a relevant portion of our graduates from UTSOA programs accepted positions in Austin, across Texas, and in California. This report includes the compiled data for all Texas cities, all California cities, and individual data for the City of Austin.

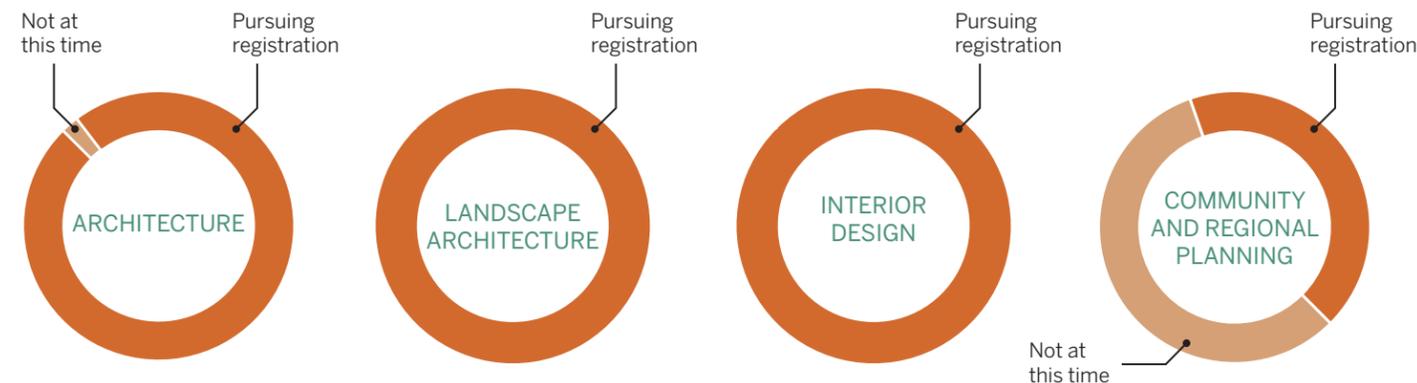

In order to protect confidentiality, the report excludes cities with small sample sizes. The variety of cities in which UTSOA graduates now reside appear within the employer lists.

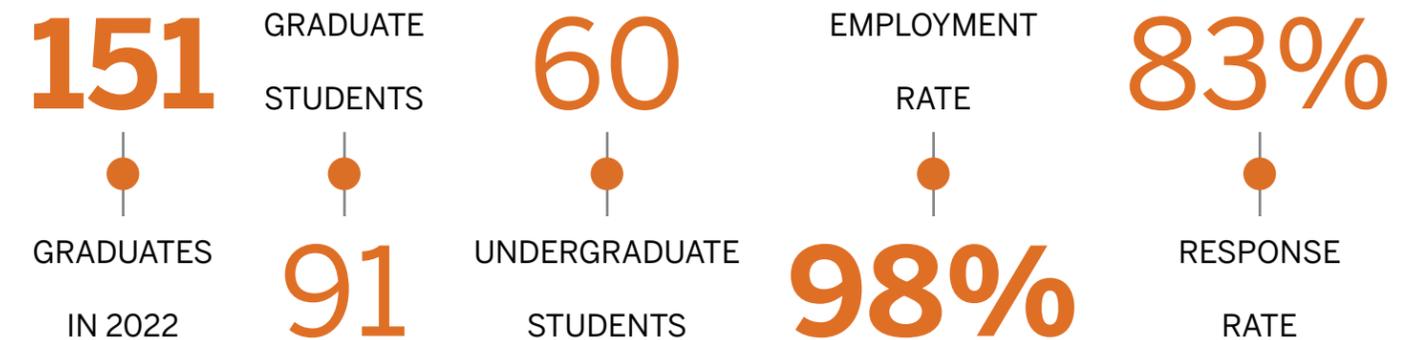

WORK SECTOR

INTEREST IN PURSUING LICENSURE / CERTIFICATION

AT A GLANCE

ADVICE FROM UTSOA GRADUATES

“Do not look at school and the professional world as two different things. Graduation should not be when the “fun” starts and you begin working on “real” projects. It is all one seamless experience.”

MArch

MArch

“Focus on your studio project, they will become your best tool to showing who you are when applying for jobs. Develop your craft.”

“I encourage everyone to take classes outside of the core CRP curriculum. It’s amazing how often I use the knowledge and skills I’ve learned from my Urban Design coursework and classes I took through the LA department, especially related to graphic design skills. ”

MSCRp

MSUD

“Explore your interests as much as you can while in graduate school, stay in touch with professors and try to increase your professional and personal network during your studies, be aware of global challenges and always be open to learning. “

“Remain enthusiastic and treat every single colleague with kindness. You’ll have a lot more fun this way!”

MID

MLA

“The first year after graduating can be tough because you are still learning about your areas of interest and developing your professional skills. Don’t be afraid to advocate for your passions and ask questions! ”
